ANNOUNCEMENT.

We are authorized to announce
JOHN W. RICHARDS
as a candidate for City Commissioner
in the non-partisan primary election
October 20, 1917.

There is money in a little girl in
Bowling Green, who swallowed a
nickel.

Judge Clem Nunn, of Marion, is
the Democratic nominee in his dis-
trict for the State Senate.

Disorders have been caused in
Bahia, Brazil, by the high cost of liv-
ing. Ten persons were killed and a
number wounded in conflicts with
the police.

Speaking of early birds, Kenneth
Matheny, defeated for the nomination
for county clerk in Calloway county,
is out in a card announcing himself a
candidate in 1921.

The commander of the armed guard
of an American merchantman has
reported to the navy department that
his crew sank a submarine after the
Germans had made an unsuccessful
attempt to sink the ship.

An agreement which will result in
an immediate reduction in the price of
coal was reported by the Illinois coal
operators after a four-hour confer-
ence with Governor Lowden. The
announcement was made by Sam'l In-
sull, chairman of the state council of
defense. A statement was being pre-
pared which outlined the settlement
reached.

The date for calling the first incre-
ment of 200,000 men into the ranks
of the national army may be changed
from September 1 to 4. September 1
is followed by Sunday and Labor
Day, and because of the heavy railroad
traffic at that time, due to holiday
excursions, draft officials fear the
work of transporting the men to can-
tonments might be seriously inter-
fered with.

Both the British and French armies
facing the Germans in Flanders have
again struck hard blows at their
opponents and have again been rewar-
ded with further gains in the line of
Crown Prince Rupprecht of Bavaria.
While the fighting occurred only on
isolated sectors, it seems evident
that the heavy artillery duels in pro-
gress all along the front from Nie-
uport to the Franco-Belgian border are
the forerunners of a resumption of
the big allied offensive which the rain
and the accompanying mire stopped
almost at its inception more than a
week ago.

Failure to Register.

Phoenix, Ariz., Aug. 10.—Thirty-
five Molokans, members of a Rus-
sian religious sect, colonized at Glen-
dale were sentenced to one year in
prison by Judge Sawtelle for failure
to obey the President's proclamation
requiring them to register under the
selective draft law.

Woman Murdered.

When Val N. Brandon, an employe
of the naval experiment station at
Annapolis, returned from work Tues-
day afternoon he found the dead
body of his wife lying on her bed.
Her skull had been crushed. No
motive for the crime was discovered.

CANE SUGAR.

Central America's production of
cane sugar is not important enough
to be listed in tables showing the
amount produced by the first 14
countries, whereas Cuba leads the
list by a large margin. Cuba's pro-
duction in the 1914-15 season was
2,592,667 tons (of 2,240 pounds
each) and in 1915-16 3,066,000 tons.
Java is second with an annual out-
put of 1,000,000 tons, and Hawaii
is third with about 600,000 tons.
Germany, with 2,500,000 tons; Rus-
sia, with 2,000,000; Austria, with
1,600,000, and the United States,
with 650,000, are the leading beet
sugar producing countries.—Phila-
delphia Ledger.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doc-
tor's Advice, Took Cardui
And Is Now Well.

Hixson, Tenn.—"About 10 years ago
I was..." says Mrs. J. B. Gadd, of
this place. "I suffered with a pain in
my left side, could not sleep at night
with this pain, always in the left
side..."

My doctor told me to use Cardui. I
took one bottle, which helped me and
after my baby came, I was stronger
and better, but the pain was still
there.

I at first let it go, but began to get
weak and in a run-down condition,
so I decided to try some more Cardui,
which I did.

This last Cardui which I took made
me much better, in fact, cured me. It
has been a number of years, still I
have no return of this trouble.

I feel it was Cardui that cured me,
and I recommend it as a splendid fe-
male tonic.

Don't allow yourself to become
weak and run-down from womanly
troubles. Take Cardui. It should sur-
ely help you, as it has so many thou-
sands of other women in the past 40
years. Headache, backache, sideache,
nervousness, sleeplessness, tired-out
feeling, are all signs of womanly trou-
ble. Other women get relief by taking
Cardui. Why not you? All druggists.

CORE FOR "DENTIST FRIGHT"

Nervous Fatigue Suffered by Patient
Result of Unnecessary Strain of
Expecting a Hurt.

That curious fear experienced by
many known as "dentist fright" is al-
together unnecessary, according to
doctors.

"The fatigue which results from an
hour or more of this dentist tension
is too well known to need descrip-
tion," says Annie Payson Hall, the
well-known teacher of nerve training.
"Most of the nervous fatigue suffered
from the dentist's work is in conse-
quence of the unnecessary strain of
expecting a hurt, and not from any
actual pain inflicted. The result ob-
tained by insisting upon making your-
self a dead weight in the chair, if you
succeed only partially, will prove
this. It will also be a preliminary
means of getting rid of the dentist
fright—that peculiar dread which is
so well known to most of us."

So well known indeed to some of
us as to shut out the sunlight for
weeks before the fatal date, the dread
increasing steadily, till by the time the
chair is reached a state of tension has
been attained that precludes the possi-
bility of letting ourselves "go dead."
But, says a well-known neurologist,
one can drop all this by a little effort,
and say to himself, "I will not cry
till I am hurt." In fact, he cannot
only acquire the ability to become a
dead weight in the chair but will final-
ly give no more thought to the den-
tist's appointment than to a date at
the golf club.

PURE OXYGEN LIKE POISON

When It Is Applied at Pressure of Sev-
eral Atmospheres Warm-Blooded
Animal Dies Quickly.

There is a seeming incongruity in
speaking of oxygen as a poison; yet
scientists say that it has long been
known that if a warm-blooded animal
be submitted to pure oxygen at a
pressure of several atmospheres it
will die as promptly and surely as if
it were in an atmosphere of pure ni-
trogen. It is pointed out that even
exposures to lesser pressures of oxy-
gen over a considerable time are of-
ten attended with fatal results, the
most familiar of which are severe in-
flammation of the lungs, thus leading
indirectly to death.

Professor Karsner has attempted to
define more accurately the possible
pathologic effects of this gas, which
is being used freely as a therapeutic
agent, as a prophylactic against
asphyxia in anesthesia in the indus-
tries, and in the exigencies of subma-
rine or aerial performances. His stud-
ies show that atmospheres contain-
ing from 80 to 96 per cent of oxygen
under normal barometric pressure usu-
ally produce, in animals, in the course
of one or two days, congestion, and
finally a pneumonia, probably of irri-
tative origin and to be described as a
"fibrinous broncho-pneumonia."

News in Brief.

I only want to report that our cat
got drowned in the cistern this morn-
ing; the baby is cutting a new tooth;
the cook left without warning; we are
out of sugar and starch; the stove
pipe fell down; the milkman left only
a pint instead of a quart today; the
bread won't rise; my oldest child is
coming down with the measles; the
plumbing in the cellar leaks; we have
only enough coal to last through to-
morrow; the paint gave out when I
got half over the dining-room floor;
the mainspring of the clock is broken;
my three sisters-in-law are coming to
visit tomorrow; the man has not called
for the garbage for two weeks; our
dog has mange; the looking-glass fell
off the wall a while ago and broke to
pieces, and I think that my husband is
taking considerable notice of a widow
lady that lives next door. That's all
today, but if anything happens later
I'll call you up and tell you about it—
Youth's Companion.

Service.

And the question always is whether
men shall serve, or merely be unhappy
because they cannot serve in a certain
way. If the path that they would like
to tread is—through no fault of theirs
—closed to them, it is for them to
open another path, and walk stead-
fastly therein. They may never win
fame, never gain the applause of the
world, and may even be criticized by
the foolish for seeming to shirk, but
they will have the approval of their
own consciences, and the good opin-
ions of all those whose opinions are
worth anything. Gifts, by their very
nature, are not things that can be ac-
quired—though may be cultivated—
for they are things given. If they are
not given, there is and can be no re-
sponsibility for failing to use them.—

Let Her Go On and On.

A long-suffering husband had a
wife who seemed to be perpetually
talking. After driving him almost fran-
tic one evening with her conversation
she remarked:

"John, I suppose when I die you'll
have a mausoleum built in my mem-
ory."

"I will do nothing of the sort," re-
turned the exasperated John. "When
you die I will have you cremated and
your ashes placed in an hour-glass.
Then you can keep on going forever."

No Need for Study.

Mrs. Flatbush—Does your husband
make you study economy?
Mrs. Bensonhurst—Why, no; I don't
have to study it. I know it by heart.
